# Butterfly

## ME+ Exclusive Technology

### ► Medium-sized mesh

ME+ is a performing solution that allows to produce net wraps made of a reduced number of chains with reinforced and thicker threads.

### ► Higher Specific Strength

ME+ technology gives the threads an incredibly superior Specific Strength. This means: perfect protection of the forage over time.

### ► Better cling on the crops

ME+ Tech ensures optimal cling on the crops. Thanks to the wider angle of the weft, the ME+ net wraps hook up fast and easily.

### ► Mesh with fewer knots

Knots are the critical points of any thread. Novatex ME+ net wraps have half the number of knots with respect to standard net wraps.

### ► Eco Friendly

The proven increase in strength of Novatex ME+ nets allowed a significant reduction in the use of plastic while maintaining the highest standards available.

Lighter, to work more easily and quickly: the 2400m Butterfly does not weigh more than 24 kg, less than 1 kg for 100 meters!

Longer, thanks to its 4200m maxi roll.

Colourful, to identify in an original way the work done.

Stronger, because Novatex quality does not accept compromises.

Thanks to the adoption of ME+ Technology, Butterfly confirms itself as a friend of the environment.

Butterfly is made to work more easily and quickly

Width: 123 | Length: 2400 m - 3600 m - 4200 m

Roll length	2400 m	3600 m	4200 m
Roll width	123 cm	123 cm	123 cm
Max. roll diameter	21,5 cm	25,5 cm	27,5 cm
Mesh type			*ME+
