

# Net Wrap **STARNET**

---

**Historic brand  
able to renew itself**

## ME+ Tecnologia Esclusiva

### ► Eco Friendly

The proven increase in strength of Novatex ME+ nets allowed a significant reduction in the use of plastic while maintaining the highest standards available.

### ► Higher Specific Strength

Novatex's ME+ technology gives the threads an incredibly superior Specific Strength. This means: perfect protection of the forage over time.

### ► Better cling on the crops

The ME+ Tech ensures optimal cling on the crops. Thanks to the wider angle of the weft, the ME net wraps hook up fast and easily.

### ► Mesh with fewer knots

Knots are the critical points of any thread. Novatex ME+ net wraps have half the number of knots with respect to standard net wraps.

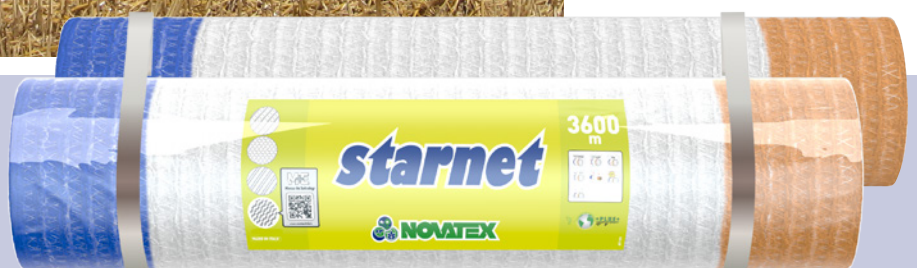

### ► Medium-sized mesh

ME+ is a performing solution that allows producing net wraps made of a reduced number of chains with reinforced and thicker threads.

# starnet

Starnet® is a truly universal net wrap, ideal in all conditions and with all balers. Key points of Starnet: a particularly soft mesh, combined with excellent elasticity and excellent breaking strength.

Today Starnet presents itself greatly renewed thanks to its very high specific strength combined with a light and performing structure.

Starnet,  
a truly universal  
net wrap.
