

Net wrap **TRIOMPHE**

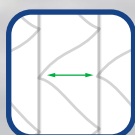

Super strength

Triomphe

ML Exclusive Technology

► **Large sized mesh**
Thanks to the flexibility of Novatex looms, ML is a solution that envisages a reduced number of chains, each of which is reinforced by double the number of threads.

► **Stronger chains**
ML chains are made with double thicker threads: this is the secret of the strongest netwrap in the market!

► **Better cling on the crops**
The weft has a larger angle than conventional net wraps. For this reason, ML hooks up incredibly faster

► **Mesh with fewer knots**
Knots are the critical points of any thread. Novatex ML netwraps have half the number of knots with respect to standard netwraps.

► **Flexible geometry**
The reduced number of tension points (knots) aids the natural movement of the weft, leaving it free to stretch in width.

Triomphe® is the natural evolution of the Maglia Larga brand: always extremely strong and all-covering, with wide tricolour stripes for maximum visibility and with an end-of-roll warning. Such technical features have secured a well-established success all over the world.

Triomphe improves the efficiency and safety of harvesting operations, especially with high-density bales and during particularly demanding work sessions. Triomphe's exclusive technology prevents stretch marks and its properties guarantee perfect bales, able to protect for long time even after stressful and repeated handlings.

The strongest,
the safest

Width: 123 | Length: 2100 m - 2600 m - 3000 m - 3600 m

Find out what Novatex means by resistance

Roll length	2100 m	2600 m	3000 m	3600 m
