**Essential and
super tough**

Maglia Larga Rekord

ML Exclusive Technology

► **Large sized mesh**
Thanks to the flexibility of Novatex looms, ML Tech is designed with a reduced number of chains, made of reinforced threads.

► **Stronger chains**
ML chains are made with thicker threads: this is the secret of the strongest net wrap on the market!

► **Better cling on the crops**
The weft has a larger angle than conventional net wraps. For this reason, ML hooks up incredibly faster.

► **Mesh with fewer knots**
Knots are the critical points of any thread. Novatex ML net wraps have half the number of knots with respect to standard net wraps.

► **Flexible geometry**
The reduced number of tension points (knots) aids the natural movement of the weft, leaving it free to stretch in width.

Maglia **REKORD** larga

Maglia Larga Rekord® is an exclusive net wrap. Its original design, with 25 reinforced chains positioned at a greater distance than traditional products, made this balenet the first heavy-duty tool for the harshest conditions of work.

Look at the advantages: better cling on forage or straw, better compression of the bale and safer handling, thanks to the highest strength on the market!
