

Net Wrap REKORD

The essential
solution

NX Exclusive Technology

► Medium sized mesh

NX is a performing solution that allows to produce net wraps with reinforced and thicker threads.

► Thicker & Stronger chains

Novatex NX mesh is made of stronger and thicker threads, ensuring higher strength and more ability to withstand repetitive handling.

► Better cling on the crops

The NX Tech ensures optimal cling on the crops. Thanks to the wider angle of the weft, the NX net wraps hook up fast and easily.

► Mesh with fewer knots

Knots are the critical points of any thread. Novatex NX net wraps have half the number of knots with respect to standard net wraps.

► Flexible geometry

The reduced number of tension points (knots) aids the natural movement of the weft, leaving it free to stretch in width.
