

Netwrap BUTTERFLY

longer, lighter,
environmentally
friendly

butterfly®

ME+ Exclusive Technology

► Higher Specific Strength

ME+ technology gives the threads an incredibly superior Specific Strength: perfect protection of the forage over time.

► Thicker & Stronger chains

Novatex ME+ mesh is made of stronger and thicker threads, ensuring higher strength and more ability to withstand repetitive handling.

► Better cling on the crops

The ME+ Tech ensures optimal cling on the crops. Thanks to the wider angle of the weft, the ME net wraps hook up fast and easily.

► Mesh with fewer knots

Knots are the critical points of any thread. Novatex ME+ net-wraps have half the number of knots with respect to standard net wraps.

► Eco Friendly

The proven increase in strength of Novatex ME+ nets has allowed a significant reduction in the use of plastic while maintaining the highest standards available.

butterfly®

Lighter, to work more easily and quickly: the 2400-meter Butterfly® does not weigh more than 24 kg, less than 1 kg for 100 meters!

Longer, thanks to its 3600 and 4200 m maxi rolls.

Colorful, to identify in an original way the work done.

Stronger, because Novatex quality does not accept compromises.

Thanks to the adoption of ME+ Technology, Butterfly confirms itself as a friend of the environment.

Butterfly is made to work more easily and quickly

Roll length	2400 m	3600 m	4200 m
Roll width	123 cm	123 m	123 cm
Max. roll diameter	25 cm	27 cm	29 cm
Average Strength			285 kg
Mesh type			*ME+
