

Netwrap **TRIOMPHE**

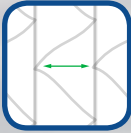

**the strongest,
the safest**

Triomphe

ML Exclusive Technology

► Large sized mesh

Thanks to the flexibility of Novatex looms, ML is a solution that envisages a reduced number of chains, each of which is reinforced by double the number of threads.

► Stronger chains

ML chains are made with double thicker threads: this is the secret of the strongest netwrap in the market!

► Better cling on the crops

The weft has a larger angle than conventional net wraps. For this reason, ML hooks up incredibly faster

► Mesh with fewer knots

Knots are the critical points of any thread. Novatex ML netwraps have half the number of knots with respect to standard netwraps.

► Flexible geometry

The reduced number of tension points (knots) aid natural movement of the weft, leaving it free to stretch in width.

Triomphe® is the natural evolution of Maglia Larga brand: always extremely strong and all-covering, with wide tricolour stripes for maximum visibility and with an end-of-roll warning. Such technical features have secured a well-established success all over the world. Triomphe® improves the efficiency and safety of harvesting operations, especially with high-density bales and during particularly demanding work sessions. Triomphe's exclusive technology prevents stretch marks and its properties guarantee perfect bales, able to protect for long time even after stressful and repeated handlings.

Triomphe improves efficiency and safety.

Roll length	2100 m	2600 m	3000 m	3600 m
Roll width	123 cm	123 cm	123 cm	123 cm
Max. roll diameter	25 cm	26 cm	27 cm	28 cm
Average Strength	300 kg
