stronger & safer

Winner ML

ML Exclusive Technology

► Large sized mesh

Thanks to the flexibility of Novatex looms, ML is a solution that envisages a reduced number of chains, each of which is reinforced by double the number of threads.

► Stronger chains

ML chains are made with double thicker threads: this is the secret of the strongest netwrap in the market!

► Better cling on the crops

The weft has a larger angle than conventional net wraps. For this reason, ML hooks up incredibly faster

► Mesh with fewer knots

Knots are the critical points of any thread. Novatex ML netwraps have half the number of knots with respect to standard netwraps.

► Flexible geometry

The reduced number of tension points (knots) aids the natural movement of the weft, leaving it free to stretch in width.

Winner ML® is the flagship net wrap of the Winner family for strength and performance. The ML technology offers 25 reinforced chains, positioned at a greater distance. A setting that guarantees better grip on forage or straw, better compression of the round bales and more safety in handling. Designed for the toughest conditions of use, Winner ML® is the perfect workmate for the most demanding professionals.
