

Netwrap **WINNER MLX**

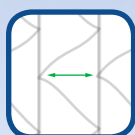

winner MLX

**all the benefits
of ML in a wider net**

Winner MLX

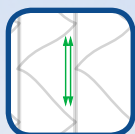

ML Exclusive Technology

► Large sized mesh

Thanks to the flexibility of Novatex looms, ML is a solution that envisages a reduced number of chains, each of which is reinforced by double the number of threads.

► Stronger chains

ML chains are made with double thicker threads: this is the secret of the strongest netwrap in the market!

► Better cling on the crops

The weft has a larger angle than conventional net wraps. For this reason, ML hooks up incredibly faster.

► Mesh with fewer knots

Knots are the critical points of any thread. Novatex ML netwraps have half the number of knots with respect to standard netwraps.

► Flexible geometry

The reduced number of tension points (knots) aid natural movement of the weft, leaving it free to stretch in width.

winner MLX

The first and only net wrap with ML Technology offering an extra width of 130 cm. Winner MLX is a very appreciated product by farmers working on large extensions. It combines advantages of higher strength for its spaced and reinforced chains with a greater working width.

With Winner MLX, maxi bales thus enjoy protection compatible with the increased weight and dimensions.

Maxi net wrap
for maxi bales

Roll length	2600 m	3000 m
Roll width	130 cm	130 cm
Max. roll diameter	26 cm	27 cm
Average Strength		310 kg
Mesh type		*ML
